

NOTICE

The competent authority has approved the following policy for use of hostels in summer vacations. Some hostels (in rotation basis) may be vacated completely during summer vacation to have annual maintenance.* All integrated master students of NISER need to vacate their rooms during every summer vacation. Those who will be doing summer project in NISER shall be shifted and accommodated in an appropriate hostel along with summer students from outside NISER with a suitable payment. The chairpersons of each school may be requested to provide a list of students of NISER who have been accepted for summer project in their school with the approval of Dean (Academic Affairs) on or before 1st April, so that necessary arrangements can be made. Any request for summer accommodations after 1st April cannot be entertained. After the registration (after summer vacation), hostels shall be allotted to the integrated master students.

* Except 5th year (graduating students)
